TUESDAY, JANUARY 30, 2018

5:00 p.m.

at the Governor James J. Florio Special Events Forum,
Edward J. Bloustein School of Planning and Public Policy
33 Livingston Avenue, New Brunswick, NJ
on the campus of Rutgers University

Adapting to Change: Environmental Science and Policy in the Time of Trump

This talk will examine the challenges to environmental science and policy in this time of change.

From climate science to pesticides; research funding to peer review, this is a time of unprecedented challenges to environmental health. Science has become a target for powerful stakeholders seeking to avoid regulation and responsibility for pollution. There is an urgent need for the scientific community to rethink our approaches to environmental protection, research and education. We need to break down the silos of environmental science and adopt a systems approach. We also need to broaden our view of the social context of environmental decisions, reach out to the business community, and regain public trust in science. Our future depends on it.

1.5 AICP CM credits have been approved for this event.

An application has been submitted to award Certified Health Education Specialists (CHES) and/or Master Certified Health Education Specialists (MCHES) up to 1.0 total Category I Continuing Education Contact Hours (CECH). Participants who complete this educational program will be awarded 1.0 NJ Public Health Continuing Education Contact Hours (CEs). The Rutgers School of Public Health, Center for Public Health Workforce Development is a designated multiple event provider of CECHs by the National Commission for Health Education Credentialing and has been approved by the New Jersey Department of Health as a provider of NJ Public Health Continuing Education Contact Hours (CEs).

The Ruth Ellen Steinman and Edward J. Bloustein Memorial Lecture

The Ruth Ellen Steinman Bloustein and Edward J. Bloustein Memorial Lecture was established to honor the memory of these two extraordinary individuals. For nearly nineteen years, the Blousteins dedicated their enormous energies to Rutgers, The State University of New Jersey. The endowment supports an annual lecture series that is intended to celebrate the values and interests the Blousteins cherished and cultivated throughout their lives. For more information about the Bloustein Memorial Lecture visit <http://bloustein.rutgers.edu/lectures>
