

A graduate research assistant position is available at the Hydrology and Remote Sensing lab (www.hydrores.com) at Civil and Environmental Engineering department at Rutgers University, New Brunswick. If you are interested in working on topics related to hydrologic extremes (floods & droughts) using hydrologic/hydraulic models, remote sensing and climate projections, please apply.

Preferred qualifications for this position:

- MS degree in Civil or Environmental Engineering or similar fields.
- Good knowledge of at least one programming language (Matlab, Python, R, C++).
- Prior experience with numerical models (hydrologic, hydrodynamic).

To apply: Send your CV, transcripts and 1 page statement of interest to Dr. Efthymios Nikolopoulos (efthymios.nikolopoulos@rutgers.edu).

Review of applications is currently ongoing, and a final decision will be made by May 15th.
