

NJ Climate Change Resource Center

CLIMATE ACADEMY - SPECIAL EVENT

December 7th 3-4pm EDT

Agricultural land management strategies that eliminate or reduce greenhouse gas emissions and/increase carbon storage are necessary to combat climate change. Join Marjorie Kaplan, Jessica Paolini, Stephanie Murphy, and Mark Robson from Rutgers University and Sara Kelemen from the University of Maine as they discuss the potential for agricultural lands in the Garden State to act as carbon sinks as a "natural climate solution."

[1 CEU for APA has been requested.](#)

This virtual event is free but registration is required. For more information and to register, visit the NJ Climate Change Resource Center website at <https://go.rutgers.edu/9aoet9zx>.
